

PROCEDURE

1. Slowly dissolve 1kg of VI - CLARGEL in 10L of water, not too cold, and thoroughly homogenize the solution.
2. With a *Venturi*, add the previous solution to the tank, very slowly, constantly homogenizing.

NOTE: After preparation of VI - CLARGEL solution, use within 24h.

Recommended dosage

MUST FLOTATION	5 - 20 g/hL
MUST TREATMENT IN WINEMAKING	20 - 50 g/hL
WINE	10 - 30 g/hL
